COMPETENCE CENTRE FOR
INNOVATIVE PROCUREMENT

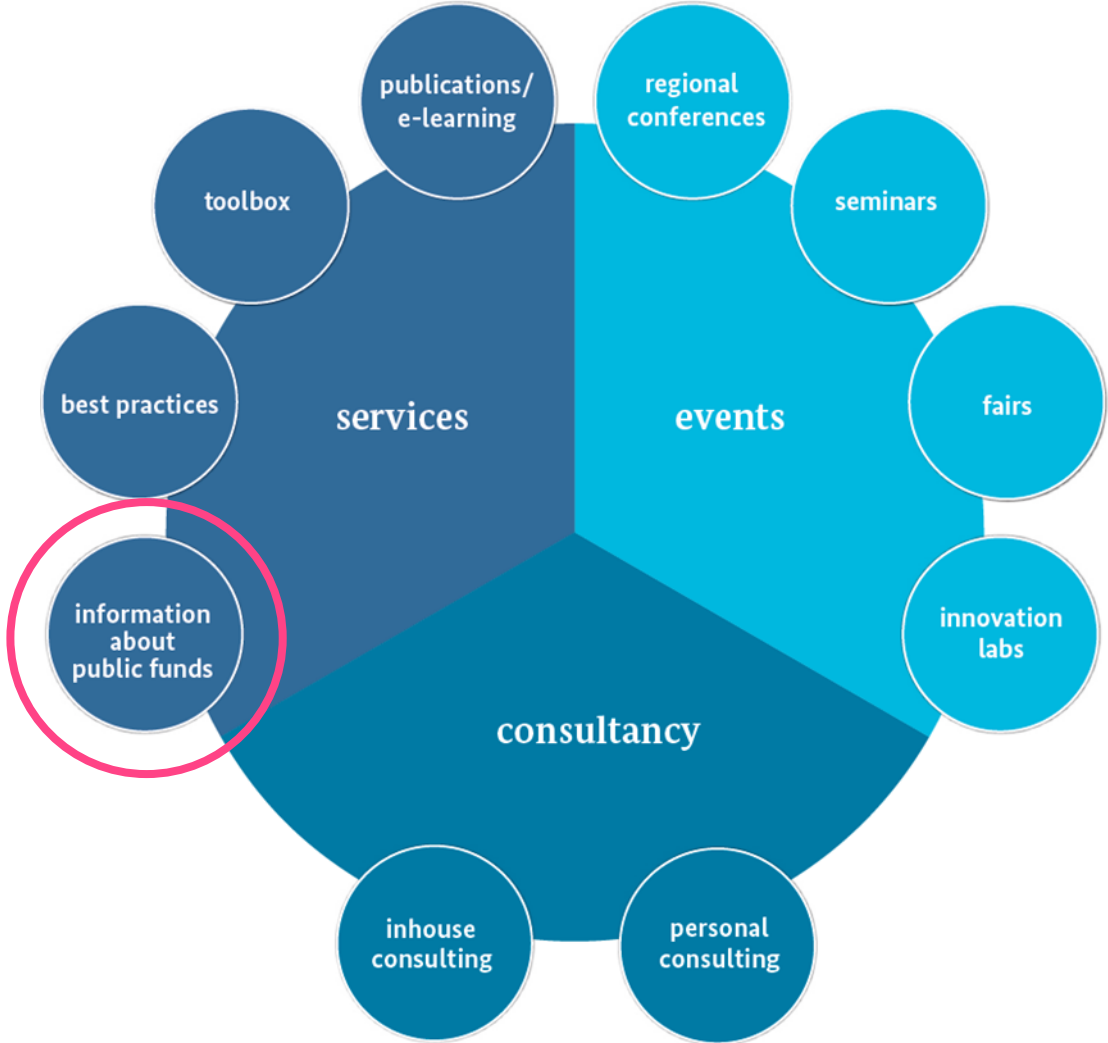

Competence Centre for Innovative Procurement

National Contact Point for Innovation Procurement Funding

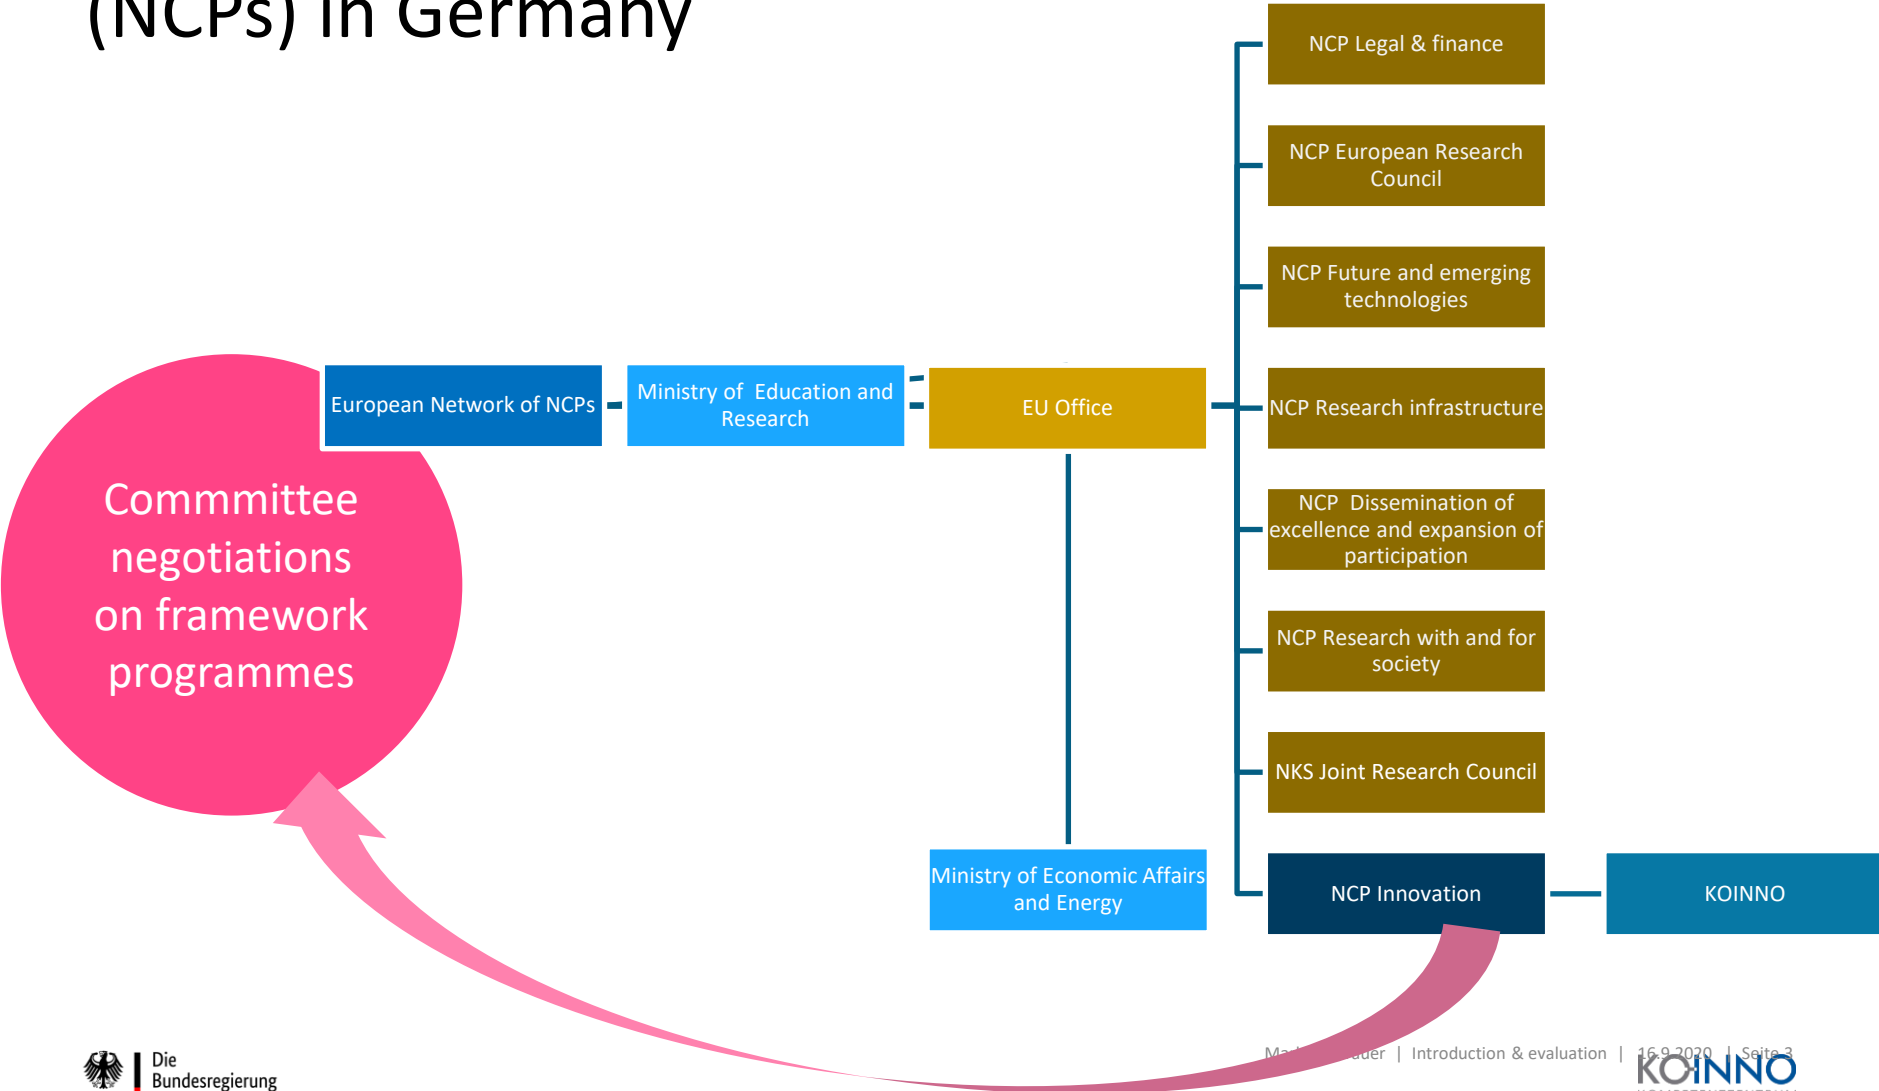

19 March 2021

Our services

The role of national contact points (NCPs) in Germany

EU Contact Point for Public Procurement of Innovative Solutions

Target groups

- **Public institutions** – as the buyers group, they form the core team of an EU procurement project
- **Research organisations** – they help the buyers group to assess technical feasibility and with market analysis
- **Enterprises and research institutes** – these are contracted by the buyers group to conduct R&D work in the PCP project or to deliver innovative products and solutions in the PPI project

Services

- Information
- Advice
- Project Support
- Partner search

EU Contact Point for Public Procurement of Innovative Solutions

- Politically important link to influence European funding calls
- In practice the service is not used as much as we would like
- In the next phase of KOINNO: expansion to other (national) funding programmes
- Institutional framework for NCP cooperation very different in each country

Thank you for your attention.
